M2: Computer Literacy Module

Session 1:

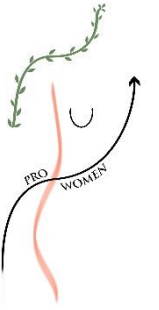

- **Basic computer literacy:** We will make sure you can operate your computer confidently and can use it according to your needs.
- **Researching online:** We will train how you determine the information you need, find it online, and can assess the material for quality and reliability.
- **Netiquette, privacy, copyright:** We will make you aware of the legal framework as well as the social conventions on the internet, make you aware of the difference between professional and private use of social media, and talk about copyright.
